

***John M. Tatulli and Tatulli Realty Group, Inc. would like to take a moment to offer our sincerest GRATITUDE that YOU have decided to allow us to serve you by giving us the opportunity to market and sell your home.***

Dear Client,

Selling a home can be an extremely emotional process. The memories are endless at times and it isn't always easy to stay focused on the task at hand. Whether you're selling to find a larger home for your growing family, or if you decide it's time to downsize in the later seasons of life, and even if you're a seasoned investor, Tatulli Realty Group, Inc. understands that people matter more than the houses themselves. Relationships matter.

I just want you to know we take this business seriously and we take you seriously. Every client deserves the same care and attention no matter what type of move they're trying to make in life. We want to "walk with you and your family" through this process. There is a huge difference in simply handling a transaction and walking closely with someone through a major decision.

With all this being said, take a look through the next few pages so you can gain some understanding in the services we provide as a business. My Grandfather started a sandwich shop in Providence RI back in 1963. He ran that business until he passed away and ever since then, my family continues to run the place, 57 years strong. My Dad also ran his own business for 30+ years and I too have this same entrepreneurial spirit, understanding of hardwork and consistency over the long haul. All traits my Grandfather and Father instilled in me as a young kid. That's what TRG, Inc. is built on. This also includes my faith which is the foundation to which all else is built on.

We look forward to helping you be a success today.
